

CERTIFIED NATURALLY GROWN

Know where your food comes from

ALL CNG PRODUCERS COMMIT TO THE FOLLOWING PRACTICES:

No Synthetic Pesticides

Absolutely no use of synthetic chemical pesticides, fungicides, or fertilizers

Use of Holistic Practices

Employing holistic practices that work with nature to address pest, disease, and nutrient challenges, minimizing use of approved sprays, treatments and amendments

Ecological Practices

Investing in our soil, water, wildlife, and air with ecological practices such as conserving water, planting cover crops, rotating crops, preserving buffer strips and protecting pollinator habitats

No Use of Chemically Treated or Genetically Modified Seeds

Using organically produced seeds whenever possible and never using chemically treated or genetically modified seeds

Positive Environmental Impact and Sustainability

Always striving to enhance the positive environmental impacts of production, minimize any negative impacts, and continually improve the sustainability of the operation.
